CLERK
U.S. DISTRICT COURT

Dear Judge,

I had hoped J. F.A. Gossell & Fred D. Franklin would be here to vouch for me, but Fred's on a Mexican Cruise & F.A. is in Washington for 2 weeks.

I have had Del. Endert attempt to kill us (my wife & me) 3 times.

1) He opened all the gas line soldering joints,

2) He crossed ground wires to start an electrical fire (with the gas leak)

→ we found these & fixed them (in our driveway.)

3) He did poison ~~me~~ Debora & me using Heavy Metals & Poly Chlor. Benzene compounds, putting them in our air ducts, in the trim over our bed, & leaving many saturated items in the house.

→ Today - I set off your Metal detector with the arsenic/mercury/lead in me (it collects at arthritic joints). I developed 30-40 disease/cancers in 2 years, including Fatal Spinal Myelitis (it separates brain & spinal cord.)

→ he will likely try to kill us faster if he knows

I filed this. (I am repeating Holland attempt to take over the case. I was a consultant for them & when they took \$8,000,000 I did the 1st Con Agmt.)
 These attempts to kill us, I was unable to walk, talk, etc. & mis-diagnosed with "Parkinson's disease."

I actually have "Parkinsonism" - an autoimmune failure of the metabolism aka "Multiple System Failure."

These 35 plus diseases have been reversed for about 10 Months. (Like Rip Van Winkle)

(using Somatostatin hormone Replacement & 2 brain stimulants.)

- It is now our order:

I know they will take the 10th property, 2nd house, & likely try to kill us again.

(getting the house = destroying all the evidence I have on Endovent. - Some still inside the walls.)

Please Help us.

Jane & Robert Davis
